

Highlight Report For March 2017

We would like to highlight about our Hostel's activities. We are getting to know more about one another and our relationship with the students is going well so far. In the beginning of the year the students were very shy and reserved. So we tried to help them out by doing different activities within the hostel, ie. group competitions, individual speech, and so on. And now we can see in them they are built up their confidence and we are glad to see the improvement in each one of them.

In the month of March on 16th we had love feast together with the students before they go for vacation.

On 17th March 6 of our students got graduated we went to attend their special day. We are proud to see them and looking forward to see their greater achievement.

On 21st-24th March, we got the opportunity to attend conference Lahu Evangelicals Baptist Convention (LEBC). Our students participate in that conference by leading praise and worship and present musical drama and the students helped in doing ushers.
