

In 2020 Term 4 we are wanting to continue the momentum of the Reset series, with a season focussing on a biblical perspective of social justice. It is often easy to be moved, but not into action; easy to be stirred, but then to forget the cries and pleas of those who are marginalised or disadvantaged... What is Jesus' desire for his people in a world that is littered with injustice? What is justice to God? How does Jesus propel us to be the most radical people in our world when it comes to social justice?

As we experiment with our new fortnightly rhythm, we will see how this empowers us as disciples to be partnering with God in making a difference in our Georges River communities, more than ever before – even in a pandemic. We want you to feel like this final part of the year is one worth celebrating as we, together, pursue Jesus' call to live out justice.
