

IDEA:

Create Your Own

Do you have something your group is passionate about already?

WHY:

Each small group is welcome to create or do a different initiative beyond the 5 we have proposed. This might be something your group is already passionate about, or something that your groups knows is happening in the area that does a great action in social justice.

The important part is that each small group decides together what they will do. And with a shared commitment, continue to organise, support and practice together.

HOW:

Four key things to consider if making your own social justice initiative for your Small Group:

1. Is the idea something you can all do together as a group, or participate individually and support each other to do it?
2. Is the idea something that is connected to the social justice of others?
3. Is the idea something that helps us practice?
4. Is the idea something that can be done in the time frame (even if it is something that can continue on afterwards?)

If you would like to run your idea past someone or get some support to help finalise details you can talk to your Coach or to Malcolm or Lara in the Equip Team.

TIME:

We encourage you to do this anytime from 22nd Nov to 13th Dec.

TIPS:

When trying to work out how to create your own, consider reading through the other initiatives to see if they will help spark creative ways to make the most of the practice.

PRAY:

We encourage you to consider how you can best pray as a small group in the lead up and during the initiative you decide.

We are most effective when we are listening attentively to Holy Spirit's leading in all that we do.
